Vol. 19, No. 26. Irma, Alberta, Friday, August 31st, 1934. $2.00 per year in advance; 5c per copy

Minutes of Meeting Buffalo Coullee, Held August 11th

Council meeting was held in Saltaux School with all the members present and Reeve Pheasey presiding.

Secretary read the minutes of July 14th meeting, which were confirmed as read on motion of Cr. Hetherington.

Representatives of the C.P.R. were in attendance and having waived their right of notice of date of meeting of the Court of Revision for Wild Land complaints, they asked that their complaints be heard this day. Coun. Hills moved and carried that complaints be heard as requested.

The parcels were considered by sections and where complaint was allowed, it was considered by the Council that the land would not pasture stock as outlined in subsection "(b)" of section 4 of the Wild Lands Tax Act. Some were allowed and others disallowed.

Cr. Ramsay moved and carried that decisions be confirmed.

Cr. Hills moved and carried that "This Council go on record as being opposed to the imposition of any Wild Lands Tax."

Cr. Ramsay carried "That this Council does here express the opinion that an injustice must be done to any taxpayer who is compelled to pay Wild Lands Tax in this district when the existing conditions make sale and settlement of vacant land impossible".

Mr. P. Brix attended and applied for Consolidation of Taxes on the E½ 31-4-7-4. It was agreed by the Council that he be given 30 days in which to pay $22.50 in cash, when an agreement would be given. If this amount not paid seizure is to be made.

Cr. Currey carried that relief order for $12 for August be issued to Mrs. Agnes Baldwin and one for $11 to T. G. Upshall.

A letter was read from the D.M.A. regarding the approval of sale of 6 quarters of land. Offers to purchase 2 other quarters were also submitted, when Cr. Hetherington carried that matter be tabled pending further investigation.

Hospital notices for the month were read.

Monthly statement for July was also read and the Reeve signed same.

Secretary read correspondence with the Vermillion banks re the opening of an account. Cr. Currey moved and carried that an account be opened in the Royal Bank and that the Deputy Reeve and Secretary be authorized to sign cheques and other documents in connection therewith.

Cr. Currey reported regarding sale from F. W. Hill pound on July 6, that it was in order and carried that the amount of $8.40 pound exes. be paid to Mr. Hill.

Several applications for consolidation were presented when Cr. Hills moved and carried that agreements be given when the current taxes and 10% of the arrears are paid, exclusive of payments made by the C.P.R.

Blaine brothers renewed their offer for the S. E. 18-48-9-4 and Council refused on motion of Cr. Dew.

Correspondence was read regarding Ambler's Lake. Cr. Hills carried that application for lease be made and a fee of $10 paid.

Cr. Hills moved and carried that a statement of Robt. Brown's account be sent to his sister, Mrs. W. J. Hawkins, of Strome, Alta. Cr. Dew reported regarding sale of balance of chattels and asked payment of expenses of $2 to himself and $2 mileage to secretary. Cr. Ramsay carried that same be paid.

An offer of $200 was refused for the N.W. 4-49-8-4 on motion of Cr. Ramsay.

A letter was read from Mrs. D. Musselman, of Bilby, asking that seizure be made for taxes on the N. E. 4-47-9-4. Cr. Ramsay carried that seizure be made.

Also one from Dr. Knoll asking payment of $7.60 for diphtheria serum and also regarding Mr. Cohn who had an operation. Cr. Hetherington carried that secretary reply and pay the $7.60.

Secretary to reply to Vermillion Standard and explain method of copying minutes and advise that they are at liberty to condense as they wish.

The Reeve reported having inspected the proposed diversion on the north side of the N.E. 22-48-9-4 at request of Cr. Hills. After doing so he had authorized the making of a survey and building of a road and expropriating the required land. Cr. Ramsay moved and carried that the report of the Reeve be accepted and action approved. Cr. Hills moved and carried that $10 per acre be offered as full compensation.

Further discussion took place regarding the collection of taxes by distraint. Cr. Dew moved and carried that the secretary be bailiff for this purpose and that his remuneration be the same as that for Councillors.

A letter was read from R. L. Rohrer, asking that interest on the balance of purchase price of the N. W. 32-47-9-4 be reduced to 5%. Coun. Ramsay carried that request be granted.

Permission was asked by the telephone committee to brace poles with guy wires. After some discussion Cr. Dew carried that the matter be tabled.

It was agreed that $2 deposit for investigation and $5 impounders fee and $1.25 poundkeepers fee were to be paid when proper statement was sent in by poundkeeper in connection with impounding of a bull owned by J. F. Addison.

Notice of compensation paid to R. Shupe was read, when the secretary was instructed to take the matter up with the Department as the Council are of the opinion that compensation is too small.

C. Hind wrote and asked that $10, which was turned in as road work and applied on the N. E. 36-48-8-4, be returned to him in cash. Cr. Dew carried that request be not granted.

Cr. Hetherington carried that the following time sheets be paid:

Div. 1: K-1, 293.50; L-1, 208.30; M-1, 78.50; N-1, 197.00.

Div. 2: C-2, 203.00; D-2, 197.75; E-2, 330.70; F-2, 246.00; G-2, 170.75; H-2, 194.00; I-2, 175.50; J-2, 40.50.

Div. 3: E-3, 192.50; F-3, 36.00; G-3, 4.75.

Div. 4: F-4, 152.00; G-4, 23.00; H-4, 210.95; I-4, 21.00.

Div. 5: F-5; 121.00; G-5, 86.00; H-5, 107.75; I-5, 56.13; J-5, 123.00; K-5, 163.00; L-5, 166.50; M-5, 51.15; N-5, 25.00.

Div. 6: F-6, 181.50; G-6, 181.50; H-6, 45.00.

Cr. Hetherington carried that the following bills be paid:

Thos. H. Moore, blacksmith work, Div. 2		$ 9.10
Roy W. Hay—		
Salary for July	90.00	
Telephone	1.66	
Stamps and envelopes	6.13	
Mileage, R. Brown	2.00	99.79
L.T.O., removal caveat		1.00
Postmaster, stamps		10.00
Wener & Son, relief Baldwin		12.00
Red & White, relief Wascherol		10.00
Manville Co-op., Atlacide		6.50
Nelson-Hill, hardware Div. 6		2.10
Alta. West. Lmbr., Div. 6		2.00
Hayward Lumber, material Div. 5		6.25
D. MacFarlane, relief Johnston		5.00
Imperial Lumber, material Div. 2	19.96	
material Div. 3	28.14	48.10
Claude Shippy, repairs Div. 3		.50
Irma Hardware, Div. 2	13.10	
Div. 3	3.10	16.40
R.A. Larson, repairs Div. 3		13.50
Dr. Greenberg, M. H. O., Whooping Cough		16.00
Mother's allowance for June		22.50
King's Printer, Acts		3.40
H. Barlow, repairs Div. 1		2.50
Dr. W.W.Bell, re G. Guyon		12.50
Vermillion Hospital, re Guyon		18.00
B. Dew, Coun. fees meetings		10.00
Wm. Tod, repairs Div. 5		1.00
Geo. Reid, repairs Div. 5		5.00

Cr. Ramsay carried that expenditure on weeds be increased to $225.00.

Cr. Hills carried the adjournment. Council to meet again at 1 o'clock on September 8th next.

"Old Timers"

THE EATON Fall and Winter Catalogue, that has just been delivered to its hundreds of thousands of readers throughout the West, marks the Fiftieth Anniversary of our entry into the business of selling by mail.

The first Catalogue, of course, was published in Toronto, and our first customers necessarily were from the East. But it was not long, surely, before the West—at that time still very much in the "frontier" stage of development—began to avail itself of the convenience of Mail Order buying, and the satisfaction of dealing with EATON'S. And it would be interesting to know who our earlier friends in the West were, and if they are still alive, well, and convinced that "It Pays to Buy from EATON'S."

The other day, for instance, we had a letter from a gentleman referring to a purchase he'd made by mail from EATON'S in 1898. The purchase was a pair of blankets which, incidentally, are still in service! This was 36 years ago, and a friend of 36 years' standing is a friend indeed. But there may be EATON customers in the West today who can recall dealing with us by mail even before that. And it would give us a real thrill to hear from them.

Do you know of any?

EATON'S

School Fair Sat., Sept. 8th

All school children in the whole district are invited. We want to make this fair a real children's day. A full line of sports and a good time for all. All scholars are free, adults 25 cents. Bring your entries in early so judging can be done quickly. All directors should be on hand to place the exhibits. Watch the specials as well as your regular entries. All adults in the district are asked to do their part to make the fair a success in every way. Everybody come out and boost!

Harmony U. F. W. A.

Harmony U.F.W.A. held the August meeting at the home of Mrs. Scott, with a good attendance. After the business of the meeting the grandmothers present were specially entertained with violin solos by little Audrey Prothero; recitations Norma and Lawrence Scott and Doris Shotts; vocal solo Miss Lucy Thompson; sketch by ladies of the local and Lucy Thompson and Margaret Shotts. After the entertainment the hostess presented the grandmothers present with a beautiful bouquet each and a large delicious cake. Mrs. McCreadie being the oldest grandmother was asked to cut the cake which was then passed to the guests. Grandmothers present were: Mrs. McCreadie, Mrs. Marshall, Mrs. Allen and Mrs. Wm. Prior. A delicious lunch brought a very pleasant afternoon to a close. Welcome guests were: Mrs. Floyd Marshall and little Audrey, Miss Lucy Thompson, Audrey and Jean Prothero, Mrs. Wm. Prior and Mrs. D. Veach and little daughter of Vancouver who are visiting at the Prior home and renewing old acquaintances. Mrs. Veach was formerly Miss Jean Prior.

United Church Notes

The services next Sunday will be held at Albert, Alma Mater and Irma at the usual hours. The sermon topic is entitled "The Three Stages of Spiritual Growth."

The time for the meeting of the General Council is drawing near and arrangements are practically completed for the services during the absence of the pastor. The Rev. J. K. Smith of the Bible Society will be here on September 30th, Rev. T. E. Armstrong of Wainwright on 23rd, and the Rev. R. W. Griffith is expected for the 9th. A full plan of the services will be published next week.

During the next few days, the cent-a-meal boxes will be opened and boxes may be brought to either the services or left at the manse.

Irma merchants should keep in mind the fact that the Irma Times goes into every home in the Irma trading area, and also that The Times is the official paper for the Kinsella M. D., and has a full list of subscribers in the territory west of Irma. You get the best service for your money by using space exclusively in The Times. Printing and publicity is our business, not a sideline.

NOTES OF INTEREST OF BUSY KINSELLA

Per Huse of Merna is visiting at J. F. Murray's.

Miss Kathleen Ferries is spending the week end in Hughenden.

Mr. and Mrs. Johnston of Minburn spent Sunday at the Watson home.

Mr. Rogers and daughter of Viking spent Sunday with Mr. and Mrs. Nease.

Mr. Phillip Napier is spending his vacation with his family at the Pacific coast.

Miss Thelma Miller and Mr. Lloyd Cameron are visiting friends at Bonnyville.

Miss Pattie Stronack, who has been visiting friends in Wainwright, has returned home.

Miss Kathleen Leighton left last week for Edmonton, where she has secured a position.

Miss Isobel McRee spent Sunday in Edmonton and attended the services of Decoration Day.

Mr. and Mrs. Ross Eaton, who have been at Gibbons for the past few weeks, have returned to town.

Miss Belle Arkinstall and Mr. Yankee Watson, of Edmonton, spent the week end at their homes here.

Mrs. Percy Jones of Irma, Mrs. Dayton and Miss Thoreson of Vancouver, were guests of Mrs. Garvie on Friday.

Mr. and Mrs. D. Thomas entertained a few friends on Wednesday evening in honor of their daughter, Gwyneth, who is leaving for Inland.

The Women's Institute held a very successful tea and sale on Saturday. Miss Ruth Wachter won first prize for the old fashioned bouquet of flowers.

Mr. and Mrs. E. R. Horinek and the Misses Anges and Christina Horinek have returned from a motor trip to Kansas and Colorado. Mr. and Mrs. W. Kerns, who have been visiting at Portland, and Mrs. W. L. Ferries who has been in San Francisco, are also at home once again. All parties report wonderful trips but are agreed that Canada is a pretty good place to live in after all.

News From The Capital

By T. B. Windross

This week's news has given the laugh to the horse as against the machine. The rough going, mud, muskeg steep mountain climbing and perilous slides have proved too much for the Bedaux expedition, now somewhere in the wilderness between Fort St. John and Telegraph Creek, B. C.

Word reaching the outside by trappers tells how the five powerful tractors of caterpillar type, specially built to carry the expedition through the toughest conditions in the Rockies, have broken down hopelessly. Two of them were lost crossing a river, one fell over a cutbank while crossing a mountain near the Half Way Valley, and the other two have become wrecks to be abandoned to the decaying rust and ruin in the wilds as just so much scrap.

And the common toiler, Dobbin the horse, has been called into requisition to continue the perilous journey through the Rockies to the Pacific coast, as well as to haul the broken machines out of the bad spots for a time.

One can imagine those horses chuckling, as horses can, at the victory over their motor driven competitors. The expedition left Edmonton on the way north July 6, and has barely got half way to its destination yet.

* * *

The capital was shocked Saturday morning by the news of a fatal tragedy in which Thomas W. Higginson, former member of the 49th Battalion, and a well known insurance man in Edmonton, is accused of shooting and killing Miss Alma Armstrong, 20-year-old Pigeon Lake girl, following a rendevous in his home Friday evening. The girl was rushed to the hospital when police found her in a pool of blood on the floor of Higginson's bedroom and she died nine hours afterwards.

Before she died the girl is reported to have told the police, "Tommy shot me." A 45 calibre revolver was found by the side of the girl when police arrived at the scene.

The full contents of a statement the girl is alleged to have made to the police in the hospital before she died were not made public.

Higginson appeared in police court Saturday for his preliminary hearing which was adjourned until Tuesday. In the meantime a coroner's jury will hold an inquest either Monday or Tuesday.

* * *

Hon. George Hoadley, provincial minister of health and telephones, returned to Edmonton Saturday morning from Ottawa, where he attended the meeting of provincial premiers with the federal government. He negotiated the loans for the Alberta government of $300,000 for completion of the Trans-Canada highway within the province, $125,000 for the Jasper highway and a loan of $900,000 to the city of Edmonton.

Mr. Hoadley also brought back the agreement with the federal government, which provides for a payment of $100,000 per month to the province for relief, while the dominion continues to assume the cost of relief for single unemployed men.

* * *

A hard luck tale for gardeners came to light from Galahad where a gardener with a fine showing of vegetables and flowers became alarmed lest his fine crop should be frozen, when low temperature threatened last week.

He made trip after trip to the family cedar chest for blankets. Near midnight he went to sleep content that his fine bloom and choice vegetables were covered and protected from the frost.

In the morning he awoke to find the garden a black ruin, for hobos had stolen all the blankets during the night.

IRMA FARMER BRINGS IN FIRST LOAD NO. 1 WHEAT

R. A. Herder, of the Irma district, hauled in to that town on Wednesday last the first load of the 1934 crop, and it graded No. 1. The grain was handled by the Searle Elevator company. Mr. Herder reports that the crop will average 22 bushels to the acre on the main crop, and 32 bushels to the acre from the certified seed wheat purchased through the Searle Grain Co. this spring.

J. C. McFARLAND STORE FEATURES SCHOOL OPENING MERCHANDISE

With school opening on Monday, September 3rd, the J. C. McFarland store takes the opportunity to have a large display advertisement in this week's issue of The Irma Times calling attention to the many needs that have to be supplied in order that the boys and girls have the right outfit at the right price. Sweaters, shoes and stockings, oxfords, and a hundred and one different other items that this store can supply and help solve your school opening problems. The usual attractive grocery prices and specials for Saturday and Monday are listed.

Something to worry about — the Greenland whale is one-third head.

ALBERTA GRAIN GROWERS—
READ THIS MESSAGE!

It is of vital importance that a strong co-operative elevator system should flourish in Alberta. It is desirable that such an elevator system should be under the control of Alberta grain growers—men who are actually following the occupation of farming.

The Alberta Pool Elevator system is the only organization in Alberta that meets these requirements.

All country elevators of the Pool system are operated under public license and as such are in a position to handle the grain of any grower.

Alberta Pool Elevators are on a sound financial basis; are efficiently managed and can give unexcelled service to the grain growers of this province. Alberta Pool agents are carefully selected and have strict instructions to give fair treatment, including proper weights and correct grades, to all patrons.

Alberta Pool Elevators operate on the co-operative principle of "Each for all and all for each"—a principle which will tend to bring a measure of economic and social justice, peace and prosperity throughout the world.

PHILCO BATTERY MODELS ARE HERE

Lowboy Cabinet, in Walnut.....**76.50**
Mantle Set, finished in satin walnut.....**56.50**

PHILCO MODEL 338

A battery operated chassis utilizing the Philco Balanced Superheterodyne circuit. Uses five tubes as follows:—1 type 15 Detector Oscillator, 1 type 32 screen grid R.F. Amplifier for intermediate frequency stage working at 50 kilocyles, 1 type 32 screen grid amplifier used in high gain second detector, 1 type 30 amplifier for first audio stage and 1 type 19 (which is 2 actual audio amplifiers in 1 glass bulb) operating in class "B" push pull as output tube.
This output system is by far the most economical system yet devised for battery operation because during pauses, or lulls in speech and music the "B" battery current consumption drops to almost zero which results in a much longer battery life and allows the use of "C" batteries. In fact receivers not using "C" batteries cannot be so economical or efficient in operation and cost will normally be saved many times over during the life of the receiver. By using 3 heavy duty "B" batteries the output system delivers well over one watt of undistorted energy to the speaker. This receiver uses a permanent magnet Philco dynamic speaker. Tuning range 540 K.C. to 2,400 K.C. (550 meters to 125 meters).

Plenty of all sizes of standard B batteries at prices that will please you

We have in stock for your convenience Threshers' Supplies of all kinds, including Beltings, Lacing, Oil cans, Forks and Handles, Lanterns, Gun and Axle Grease, etc.

DO THE FLIES BOTHER YOU?

This Changing World

Probably no period of recorded history can show such a succession of surprising and kaleidoscopic changes, political and economic, as that through which we are passing. The vast complex of peoples and nations comprising the civilized world to-day is in a state of uniformly unstable equilibrium—an equilibrium disturbed from time to time by a variety of insurgencies both major and minor. So frequent are they, so unexpected their character, so far-reaching their effects, that few even of the great among the prophets dare risk portraying the face of things to come in the immediate future. They feel safer in making (and indeed they prefer to make) their predictions at long range, and to envision a world more remote in time than that which is likely to concern much the present much-abused generation.

The political and economic changes which occurred during the storm years of 1914-18, the revolutionary upheavals which wrecked dynasties and brought new state forms into being, probably were larger in scale. But they were not so numerous nor, for that matter, did they strike with ruder shock than those of more recent occurrence. The protracted strain of the war itself served to dull and deaden the sensibilities of the people directly subjected to it, and, more inured to shock, they were inclined to lump all the catastrophies into one—the War. They were inclined, too, to the belief that, once peace were restored, the world would quickly revert to the pre-war basis and settle anew to the ordered routine which seemed so stable until the unexpected happened at Sarajevo.

The world, however, has refused to settle down, refused to revert to the former status. The well-ordered machine which made this seem the best of all possible worlds until the summer of 1914, has never regained its old momentum. The people hanker for peace and a chance to routine their existence. They wish to remodel the new world on something like the old lines. But peace is denied them—peace, security and comfort, the comfort which comes from an assured livelihood. All is unrest. They feel they sit upon a volcano about to erupt, and nerves agitated by uncertainties make them the more susceptible to the recurrent shocks which evidence the turmoil beneath. Thus the crises of the depression appear more menacing than those which occurred during war-time which stunned, rather than agitated.

Recent events in Austria and Germany are symptomatic of the times. The world looks on with anxiety while these two nations writhe in their efforts to evolve a state form which can bring harmony and happiness to their peoples. Equally significant to the world at large, however, are the experiments being tried in the United States and in Great Britain to evolve a new economy which will give work to the workless and restore the prosperity both, in the past, have enjoyed. Both experiments involve complete revolutions in the national economic life of those countries, but few would agree that either yet had found the solution within itself.

It is unnecessary to enumerate the many changes during the period of depression. Books on political and economic subjects become obsolete in a day. Anyone who reads knows that. Take, for example, the following quotation from a book which reached shelves of public libraries in Western Canada little more than a year ago:

"Nobody doubts, for instance, that America will overcome the present difficulties once it gets a grip on itself. France is sitting comfortably, and even Germany is held to have a fair chance But the issue is more doubtful for Great Britain because her malady seems more fundamental. Already, the British Empire has fallen from its former high estate."

The picture has been entirely reversed since then. Scarcely a statement in the quotation stands to-day—and that is but a sample of the dangers besetting the would-be prophet in this dynamic, fluid world. Apparently, the unstable condition will continue until every nostrum and every alleged cure-all has been tried and tried in vain. Then perchance, a world on the verge of ruin will realize that it is not so much the medicine that is wrong as the diagnosis. Indeed, were international enmity replaced by international amity almost any kind of political or economic medicine might cure remaining ills.

Realises Its Value

Governor-General Is Patron To Junior Farm Clubs

Club members and everyone associated with club work for farm boys and girls will sincerely appreciate the great honor that has been accorded to the junior farm club movement by His Excellency the Governor-General, the Earl of Bessborough, who has extended his patronage to the Canadian Council on Boys' and Girls' Club Work.

The recognition that His Excellency has thus given to the value of junior club work in Canada should encourage greater activity on the part of every club member and stimulate a deeper sense of the opportunities that are provided in this form of agricultural extension.

Up To The Architect

Instead of saying that man is a creature of circumstances, it would be nearer the mark to say that man is the architect of circumstance. It is character which builds an existence out of circumstance. From the same material one man builds palaces, another hovels, one warehouses, another villas. Bricks and martar are mortar and bricks until the architect can make them something else.

Criminals Steal Arms

1,027 Guns Taken From U.S. Armories Since 1932

The underworld has stolen 1,027 guns—ten of them machine-guns—and 23,110 rounds of ammunition from national guard armories in 29 states since January 1, 1932. William Stanley, acting United States attorney-general, gave the information.

At the same time he revealed the department of justice has asked the war department to prevail upon state governors to end these thefts. Stanley reminded that the federal machine-gun law which took effect recently, is intended to close firearms channels to the criminal.

Grain Duty Free

Under the authority of the Reich cereal organization, rye, wheat, pelt, barley and oats in all quantities may be imported into Germany duty free until July 31, 1935, according to the decree issued by the ministers of finance and agriculture. However, it was believed the cereal organization is only likely to permit imports when a shortage in Germany is acute.

Nearly $170,000,000,000 of American money is privately invested in foreign countries.

Diarrhoea, Dysentery, Colic Cramps and Stomach Pains

Prompt treatment with Dr. Fowler's Extract of Wild Strawberry in such cases relieves the pains, checks the looseness of the bowels, and thus does away with the suffering, the weakness, and oftentimes the collapse associated with attacks of this kind.

It does this by checking the too frequent and irritating stools, settling the stomach, and bracing up the weakened system, thus making it a remedy for the treatment of bowel complaints of both young and old.

On the market for 88 years—you do not experiment when you use it.

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Seeking New Height Record

Wiley Post Will Use Flying Suit He Invented

With a specially constructed flying suit of his own invention, Wiley Post, world-circler, will soon take off in an attempt to better the present altitude record of 47,352 feet.

His well-known companion, the "Winnie Mae", a ship almost as famous as Lindbergh's, "Spirit of St. Louis", has been remodelled with the addition of a new 420-horse power motor and two superchargers so that her speed is expected to be increased to 350 miles per hour at ordinary altitudes, and seemingly impossible velocities in the stratosphere where air resistance approaches "nil".

Post's flight is not primarily for purposes of breaking records, but to test his airsuit, he has announced.

"Engineers have always said if we had a variable pitch propeller and a super-charged motor we could fly in any altitude if the body could function normally," Post explained. "Well, we have the propellers and the superchargers and I believe this suit will conquer the last obstacle."

The suit consists of rubberized fabric trousers covering the entire trunk of the body up to the shoulders and a rubber top piece capped by an aluminum head gear. The wearer will get air through the supercharger, which also supplies the motor. The suit, of course, is air-tight.

Post hopes to get enough information in his initial test to aid him in winning the $50,000 London-to-Australia derby next October.

The water ouzel is the only song bird that has learned to dive into the water for its food.

Rock Slide At Niagara

Huge Chunk Weighing Thirty Million Pounds Goes Over The Falls

A gigantic pile of rock estimated to weigh 30,000,000 pounds rose above the water in Niagara gorge recently, visible evidence of the second major rock slide from Horseshoe Falls since 1931.

Water was flowing over what was dry rock as sightseers thronged to the shore of Goat Island in an effort to obtain a view of the jagged, saw-like rim of the falls and the huge pile beneath it. But mist obscured the view, shrouding the secret of Nature's wonder.

The huge chunk fell from the cataract with a deafening roar that seemed to still the sound of water pouring over the precipice. The rock landed in the gorge, sending a spout of water more than 200 feet into the air.

The lip of one of Canada's great wonders lifted as if from a charge of dynamite, heaved, groaned and slid away with a roar. Where there was only a dribble of water a huge stream began to pour.

Niagara Falls, in its recent break, demonstrated a geological belief that this scenic wonder is only the last of the American Niagaras, and like the others, is headed towards extinction within perhaps 20,000 years.

Brazil is chiefly an agricultural country and the diversity of climate facilities the cultivation of practically every agricultural product. Nevertheless, Canada in the fiscal year 1933-34 exported $327,511 worth of agricultural and vegetable products to Brazil, including wheat and showing an increase of $202,108 on the preceding year.

British Dominions Emigration Society

Secretary Returns To England After A Visit To Canada

Concluding his forty-second visit to Canada from Britain, Robert Culver, secretary of the British Dominions Emigration Society, returns on the Cunard White Star liner Ascania from Montreal.

"I am impressed," declared Mr. Culver in an interview, "with the improvement in Canadian business conditions over last year. There are many signs of material progress and a feeling of returning confidence among influential people I have met here this year. I feel that before long we shall have a greater opportunity of increasing the work of our society in the Dominion."

"The British Dominions Emigration Society was founded in 1882 by Prebendary Kitto. During these 52 years over 37,000 have been assisted to emigrate, and the feature of the work I am most proud of is that we have never charged one cent interest on the money advanced. It was not surprising therefore, though most gratifying to our society, to receive a commendatory letter from your Prime Minister, the Rt. Hon. R. B. Bennett, paying warm tribute to our work upon the occasion of our 50th anniversary. At the present time our work is almost entirely confined to the re-union of British families."

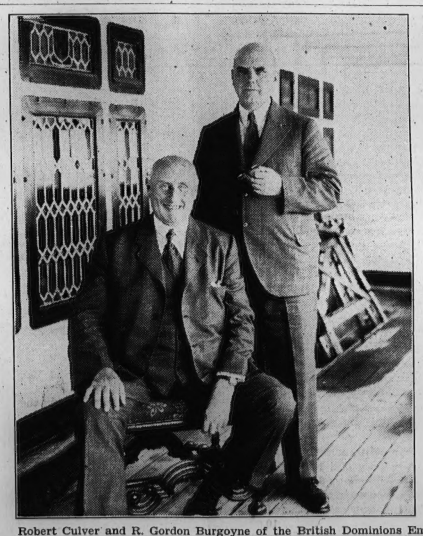

The society enjoys the high presidency of H.R.H. Princess Louise, Duches of Argyll, and a list of distinguished vice-presidents which includes The Most Noble the Marquess of Salisbury, K.G., G.C.V.O.; The Right Hon. and Right. Rev. The Lord Bishop of London, The Right Rev. The Lord Bishop of Stepney, The Right Hon. Lord Lloyd, The Right Hon. Lord Middleton, Sir Archibald Weigall.

The society's Canadian manager is R. Gordon Burgoyne of Montreal; the local committee includes many business and professional leaders.

Committees of similar calibre cooperate with the society in Toronto, Halifax and Saint John, N.B.

Assistance to emigrate takes the form of grants or loans made under varying conditions to suit circumstances, to British-born subjects of good character and sound health; also of advice and help to settlers after their arrival.

"It has been found by our representatives in Canada," Mr. Culver said, "that large numbers of men go out, leaving their wives and families behind, with every hone and good intention of soon being able to send for them. They make good in the various cities and towns throughout Canada, but very quickly find that after keeping themselves and sending money home to help to keep their wives and families in Britain, it is utterly impossible for them to save the amount required to bring their wives and families out. One of two things is then bound to happen—either the men have to throw up their good permanent work in Canada and return to the Old Country to swell the ranks of the unemployed there, or they have to receive assistance towards the cost of the transportation of their wives and families. We are very glad indeed to be able to take up this work, which we feel is of considerable importance."

Robert Culver and R. Gordon Burgoyne of the British Dominions Emigration Society, who returned to Britain on the White Star Liner Ascania

Makes "Color-Music"

Attachment For Piano Invented By English Engineer

I. Shamah, English electrical engineer, has invented an apparatus for making "color-music" which may be used in any home as an attachment to a piano. By means of this, a drawing room may be flooded with diffusing lights which will automatically react in colors to whatever tune is played. He has so graded the vibrations of a piano in proportion to each other that each note has its own exact shade, so that it will be possible for instance, to play "God Save the King" in a combination of shades varying between red, white and blue; the "Blue Danube" in green and blue, or the "Moonlight Sonata" in yellow and silver. Another invention by Mr. Shamah enables one to "feel" music. You hold two metal tubes and when a tune is played you feel the rhythm of it like a beating pulse, which send a pleasant tingling sensation up the arms.

Telephone Of The Future

Eighty-Three-Year-Old Scientist Working On Improvements

Sir John Ambrose Fleming, a celebrated scientist who has had a good deal to do with the development of telephones, is the inventor of the thermionic valve—which made wireless telegraphy possible. "In a few years' time," he said the other day, "we shall probably chuckle over the recollection of what telephones were like in 1934. Everybody knows that the telephone is in its infancy; everybody knows that it can be improved enormously. What form will that improvement take? I am a scientist, not a prophet. The telephone may be a little box that you can carry in your pocket. It may become more elaborate than it is today. I do not choose to prophesy. I'm certainly not going to tell you on what lines I am working now to improve the telephone." Sir John Fleming is 83, and a very busy 83.

Making The Roads Safe

British Courts Do Not Handle Reckless Drivers Easily

British courts are ruthless with motorists who carelessly endanger the lives of others. Kaye Don is under sentence on this account, and another example is to hand in the sentence of a girl, recommended to mercy by the jury and therefore getting off with half the term the judge had intended to impose, sent to jail for six months for manslaughter. She said she had been ill and took some gin to relieve the pain, and had had three bottles of beer as well as the gin. Her driver's license was revoked and she was disqualified for life from driving. That is' the way to make the roads safe.—Hamilton Herald.

Made Fast Trip

A homing pigeon, owned by Arthur Milner of Sault Ste. Marie, made a hop of 501 miles from Minneapolis to Sault Ste. Marie, in 25 hours. Released at Minneapolis one day at 9 a.m., the bird arrived at 10 a.m. the next day.

Bridge and bridge tournaments are regarded as gaming in England.

The First Motorcycle

Fiftieth Anniversary To Be Celebrated In Germany This Year

The fiftieth anniversary of the first motor-cycle is to be celebrated this year; a monument is to be erected to Gottlieb Daimler, in Schorndorf, Germany. Working behind the shutters of a shop in Stuttgart, Daimler and Wilhelm Maybach made the first motor-cycle, and in the same year the first motor-boat was launched in the river Neckar, a tributary of the Rhine. Believing the inventors were manufacturing counterfeit money, the police raided their workshop, and as there was considerable public fear of petrol, wires mounted on porcelain insulators were placed around the premises to give the impression that the motive power was electricity. In the following year the first "horseless" carriage left the shop. It was an ordinary horse-drawn carriage with metal tires in which one cylinder of 1½ horsepower was mounted. It achieved a speed of eleven miles an hour.

A Pulpit On Wheels

Sexton Places It Where People Can See Minister

In the Church of St. James, Clovelley, is a pulpit on tram lines. The pulpit which existed before 1888, was very high and ugly, so it was decided to cut it down to its present proportions. When placed in a certain position in the church it concealed the altar, and when in the only other suitable position, people in the gallery could not see the preacher. Now, before the sermon, the sexton pushes the pulpit on its lines to the centre of the church, and after the sermon it is pushed back again.

Gigantic Wine Cask

Heidelberg's famous cask will be a mere barrel compared to a wooden giant under construction at Bad Duekheim, Germany, and destined to be the world's largest wine vat. Resting on foundations of concrete it will have a capacity of 350,000 gallons, against the mere 50,000 gallons of the Heidelberg barrel.

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile —Without Calomel

Your liver's a very small organ, but it certainly can put your digestive and eliminative organs out of kilter, by refusing to pour out its daily two pounds of liquid bile into your bowels

You won't completely correct such a condition by taking salts, oil, mineral water, laxative candy or chewing gum, or roughage. When they've moved your bowels they're through—and you need a liver stimulant.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. Safe. Sure. Ask for them by name. Refuse substitutes. 25c at all druggists. 48

W. N. U. 2060

HOW TO KEEP COOL

Take an effervescing glass of pleasant-tasting Andrews Liver Salt when you begin to feel the heat. At once you will feel cooler—and you'll stay cooler. Andrews not only quenches thirst, but cools your blood. Taken occasionally—say twice each week—Andrews will keep you fit by purifying your system and insuring regular and *complete* elimination. At all druggists. In tins, 35c and 60c. New, large bottle, 75c. Sole Agents: John A. Huston Co., Ltd., Toronto. 26

OCCASIONAL WIFE

By

EDNA ROBB WEBSTER

Author of "Joretta", "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. After a party at an exclusive club, when the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel. After Camilla has gone from the studio, Avis Werth calls and persuades Peter to accept a loan of $1,000. Peter finishes his exhibit and asks Avis and Camilla for suggestions as to a name for it. Camilla suggests "Eager Youth," and Avis "Inspiration". Peter adopts the latter title and Camilla, heartsick, goes to Peter's studio for quiet and to think. Peter and Avis follow later, and as the lights are turned on, see the statue has been shattered to pieces. Avis accuses Camilla of doing this, and Camilla, stunned by the disaster, and hurt and horrified by the accusation, faints.

At Camilla's suggestion, Peter enters as his exhibit a statue he had sculptured especially for her as a wedding gift. They named it "Land of Hope".

Camilla's advertising campaign and Tiny Tots broadcast was a great success, and Mr. Hoyt expressed his pleasure and surprise on learning that Camilla was the author and artist who was so ably stimulating business for his company.

Peter's exhibit was awarded the Paris scholarship, and he prepares for his journey to France. After the ship's departure from New York, he is on his way to his cabin when he meets Avis Werth.

(Now Go On With The Story)

CHAPTER LVII.

Before Peter could recover from his surprise enough to speak, Avis smiled serenely and exclaimed, "Surprise, Peter!"

"Well, hello," he replied with a note of consternation in his voice. "You do have a habit of appearing at the most unexpected times and places."

"And aren't you glad to see me?" she asked in a hurt voice.

"Why, of course," he was rallying to the exigency of the moment. "As a matter of fact, I was just now headed for my cabin and wondering what I was going to do with myself on this slow-going craft for a whole week. But why in the world are you travelling on a tub like this?"

"To see that you are not lonely," she replied coyly.

"That is most considerate of you," he offered gallantly.

"Oh, but I had a selfish reason, also. I didn't want to be lonely on another boat, you see. A week with a good travelling companion can be much shorter than five days alone."

"But I didn't know you had planned to go to Europe, now."

"Neither did I until two days ago, and you were so busy with your own affairs that I just decided to make it a little surprise to you."

"No doubt about the surprise," he admitted. "What's your destination—Paris?"

"Oh, yes. Always Paris. I travel here and there about the continent when I am over there, but Paris is always home to me. You are still wondering why I am going. It happened this way: I was talking with Professor Drake the other day and he said that in his opinion my talent lies in portrait work, and that the very best thing I could do was to study with Monsieur Boule in Paris. In my enthusiasm, I decided to go at once, and then hit upon the idea of taking the same boat with you, just for the fun of it. If I get over there and discover that I am not prepared to stay indefinitely, I'll take a fast boat back and start all over."

"How convenient it is to have money!" he sighed, smiling.

"You'll be like that some day," she said confidently. "But there is no sense in our standing here like this. I must see that Tillie gets us settled this afternoon; and then for a long, pleasant luxurious week. Do you like the water?"

"I think I do," Peter grinned, "but I've never before been out where it is so deep even as this."

She turned away, then hesitated. "Shall I arrange with the dining room steward to put us at the same table?"

"Why, of course. No sense in two good friends, stranded at sea on the same boat, sitting at different tables and wishing for congenial company. Or wait, I'll arrange for it, myself," he suggested on second thought. It would look better for Avis if he sought her companionship, via tips to the steward.

"Fine!" Avis agreed, and reflected that it might be clever to arrange for the information to reach Camilla that Peter had bribed a dining room steward for a table with her. One could not imagine a man falling more neatly into her plans than Peter had from the beginning. True, it was a slow and tedious campaign, but well worth the time and patience. "See you at dinner, then," she left him gayly.

For two days' notice, Avis' trunks contained a surprising collection of stunning clothes, which might have been purchased for a definite purpose. She might have been on her honeymoon, so alluring she made herself for every day and every occasion of that voyage.

By the third day, it seemed quite natural for them to face each other across the breakfast, luncheon and dinner table; with deck games, contract bridge in the salon, dancing in the evenings or just sitting idly side by side in their deck chairs in the calm, indolent hours between activities.

Peter was seized by a spell of inertia, so easily developed aboard a steamer, and following the strain of busy days over many months—years, in fact. It was the first time he had relaxed from anxiety and work for as long as he could remember. It was so blissful to stroll idly around or lie in a deck chair with eyes closed and caressed by the warm salt breeze, to dream without doing and to plan without action. Avis had convinced him of the wisdom of such a week of idleness. On the second day out, he had protested when she proposed a set of deck tennis.

"But I should be working, Avis. I expected to get a lot of extra things done this week."

"Aren't you the bear for work, though? Now let me tell you what would be the sensible thing for you to do, Peter. Make this week a real vacation. Forget everything except rest and a good time and be ready to leap into Paris in full swing with new ambition. You certainly deserve one week away from your work, while at the same time it would do you a vast amount of good. You must learn to play a little." She was so anxiously concerned for his welfare that he felt a responsive desire to humor her wishes, even while he acknowledged that she probably was right about it.

It was that receptive mood induced by his complete resignation to idleness and pleasure into which Avis subtly sowed her seeds of intrigue that sprouted and flourished into a lusty romance which promised to bud and blossom.

By the third day, Camilla and America seemed vague and remote as to time and space; and Peter was luxuriating in the charm of Avis' gentle flattery, the pleasure of her gay, irresponsible manner, so different from Camilla's harrying confinement to work and ambition and obligation.

Avis captivated him in this period of lassitude and pleasure as she never had done in the atmosphere of work and ambition at the studio. She was part of this life which had seemed so unattainable to him, and she made him feel that he had only to reach out his hand and grasp it. And although the Belgrade was not the epitome of luxury and service to which she was accustomed, it seemed magnificent to Peter who had had so little ease and beauty in his life.

If Camilla's ambition had inspired him and provided him confidence, Avis' holiday mood stimulated his desire to obtain what he wanted by the shortest route, to forfeit an ounce of proud struggle for a pound of easy victory. It wasn't so much her words and actions, as her manner and the way her very thoughts willed him to her viewpoint.

There was also a full golden moon in conspiracy with wind-blown, dimly-lighted decks, in her favor. Sitting side by side, snuggled into steamer rugs, with the vastness of the heaving sea stretching about them in all directions to remind them of the insignificance of man, of the futility of waiting for life while life passed by; talking in intimate tones while the silver sheen of the moonlight and the eerie sound of the waves against the hull of the boat turned it all into a world of make-believe. Prosaic life lost its proportions of importance. It was a mood in which man tells himself that this moment, this hour, is his to do with what he will. Why wait for that which never may be, and remember that which is lost to time forever? The lure of the present is sweetly intoxicating as one partakes of more and more.

Flying Under Difficulties

Imperial Airways Maintain Service Over Dead Sea Area

The difficulties of flying over wild areas are appreciated by H. K. Hales, Conservative M.P. for Hanley in Great Britain. He is an experienced traveller by air and he pays this compliment:

"I would like at this juncture to express my admiration for the marvellous organization which is shown by Imperial Airways Limited. They may be slow but they are sure. I think I am right in saying that there were not more than two occasions when we did not arrive at our destination on time, a thing which I greatly appreciated.

"You have to remember also that the organization of the ground forces and equipment is a great problem. In Penang they have got yet got the aerodrome in order. The ground has just been laid out and levelled.

"And we must not forget the difficulties with the Persian government, which have necessitated us flying down the coast of Arabia instead of Persia and have made it necessary to cover some 200 extra miles.

"Flying over the Dead Sea with a strong adverse wind, we were obliged to return to a desolate tract of country to pick up petrol out of a tank placed there to meet such an eventuality. That is another little instance of how the unexpected may happen at any moment with a full load of passengers and freight for which allowances must be made, and everything done to keep the service up to time."

Of all places in the world the vicinity of the Dead Sea is not the spot to pick for a forced landing. It is hot in the valley, and although Jericho is only a few miles away, there is nothing there but a few Arab huts.—Border Cities Star.

Origin Still Uncertain

No One Really Knows First Significance Of Swastika

Some scholars believe the Swastika is merely a decorative or ornamental design, having evolved from the lotus petal pattern used in early architecture. Some say it was merely a talisman or charm, to be worked in precious metals and worn as amulet or pendant. As a mystic symbol, it is said to have been associated through the ages with fire, water, wind and rain. There are archaeologists who hold that its four points, or feet, indicate the four cardinal points of the compass. It has been interpreted as representing a flame of sacred fire, the sun in its daily rotation and a flash of lightning. Much speculation followed its adoption as the national emblem of the German Socialist party several years ago and many articles were written about it. However, its real origin and first significance are still uncertain. The final word of the swastika comes from the curator of archaeology of Smithsonian Institution. "It is the earliest known symbol or form of the cross and is undoubtedly pre-historic. The name is Sanskrit, but the symbol itself existed long before it even had a name."

Any bag, sack, box, barrel, keg, bottle, carton or other container of maize starch (including maize starch cornflour) imported into the United Kingdom is required by a new order to be conspicuously marked with the name of the country of origin.

To Safeguard Drivers

Authorities May Stop Unofficial Testing Of Racing Cars

Now that the trial of Kaye Don has ended, it is stated in British racing circles that the authorities will decide to prohibit the use of racing cars and racing motorcycles on the roads out of official practice hours.

Kaye Don was sentenced by Deemster Farrant to four months' imprisonment for the manslaughter of his mechanic, Francis Taylor, while practising out of official hours for a car race.

An appeal was lodged, and after being in custody for a few hours Kaye Don was released on bail.

The authorities for many years have given a great deal of latitude to the drivers and riders from all parts of the world who come over to take part in the races.

For both the long-standing motorcycle races and the car races of the past two years there are official practice races, for which the roads are closed. In addition, a tradition has grown up that any driver or rider who wished to make additional trials could do so without any risk of serious consequences.

Before egg-grading was introduced into Canada in 1923 by the Dominion Department of Agriculture, the yearly consumption of eggs per head of the population was 17 dozen. Now it is 28 dozen.

BABY'S UPSET STOMACH Relieved!

Often in hot weather and occasionally at other times, little stomachs turn sour and acid. "When I notice any sign of sick stomach," says Mrs. J. Alphonous Brown, Bayside, P.E.I., "I always give a Baby's Own Tablet." They quickly set things right are very easy to take and quite *safe*. All common ailments of childhood including teething are promptly relieved with Baby's Own Tablets. 25c a package at drug stores. 18c

Little Helps For This Week

"I form the light and create darkness; I make peace and create evil; I the Lord do these things." Isaiah 45:7.

"All is God that is, and is to be;
And God is good." Let this suffice us still,
Resting in childlike trust upon His will,
Who moves to His great ends, unthwarted by the ill.
—J. G. Whittier.

This then is of faith, that everything which touches us in mind, body or estate, whether brought about by this outward senseless nature or by the will of man, good or bad, is overruled to each of us by the all-holy and all-loving will of God. Whatever befalls us, however it befalls us, we must receive as the will of God. If it is through man's negligence, or ill-will, or anger, still it is to us in the very least circumstance the will of God. For if the least thing could happen to us without God's permission it would be something out of God's control. His providence and love would not be what they are. Almighty God Himself would not be the same God, not the God we believe, adore and love.—E. B. Pusey.

Uncover Roman Theatre

Walls Slowly Emerging From Ground In St. Albans, England

So many people are flocking to St. Albans, England, the Roman Verulamium, hoping to see the Roman theatre whose walls are slowly emerging from the ground that Lord Verulam, in charge of the excavations, has given orders to admit the public to the area every day between certain hours. All archaeologists agree that this theatre is the only example of its kind at present known in Britain. It follows the normal classical plan and possesses an oblong stage and a semi-circular auditorium, approached by staircases. The spade thus far has revealed nearly one-half of the theatre. From its proportions it is apparent that in its day it would have seated between 1,500 and 2,000 playgoers. The building appears to date from the second century A.D.

Novel Heating System

Specially-Treated Wallpaper Is Invention Of London Scientist

Heating system of novel design has been invented by a London scientists —working on the principle that the human body is always radiating heat to colder objects. He has invented a system which will raise the temperature of any room as high as that needed for human well-being. This will be done by specially-treated wallpaper connected to the electrical system.

At the Bee Division, Central Experimental Farm, Ottawa, it has been found that at least two months are required to lay the foundation of next year's honey crop by building up after August 1 a force of young bees capable of withstanding the rigours of the coming winter in a satisfactory manner.

Can Recommend Canada

Earl Of Chichester Thinks It Fine For Young People

The Earl of Chichester, who sailed to England after spending seven months in the office of Sir William Clark, British High Commissioner, in Ottawa summed up his views of Canada before he sailed, as follows: "If I were asked by a young man just out of school, I should certainly recommend Canada, but I should also point out that he would have to work hard. Canada is undoubtedly a country for a young man, but he'll have to work."

Narcotine is one of the organic bases or alkaloids occurring in opium, in which it usually exists in the proportion of six to eight per cent.

Even the woodpecker owes his success to the fact that he uses his head.

HOLDS FALSE TEETH TIGHT AS CEMENT

J. C. McFARLAND CO.

Main Street

George Worthing of Fabyan, was in town on business Saturday.

Miss Helen Knudson spent Tuesday, August 28th, in Edmonton.

Mrs. F. McDowell, of Edmonton, arrived on Wednesday, August 29th.

The Irma schools both public and high will open on Monday, Sept.3rd.

Sorry to report Mrs. Jno. Archibald has been laid up with a sore foot.

Josephine Ann Saville is visiting with her grandma at the EY ranch, Hardisty.

Mrs. Earle Prior and Evelyn are recovering from the attack of septic throat.

BORN—To Mr. and Mrs. Gerald Allen, on Sunday, August 26th, 1934, a daughter.

Mrs. Haun is progressing favorably under the care of Dr. Wallace and Mrs. Slipper.

Master Clifford Jones is enjoying a visit from his cousin, Ralph Thorssen of Viking.

Master Billy Rollans of Viking, is spending a few days with his cousin Shiela Bishop.

Mrs. Thos. Marsden and sons Billy and Thomas are visiting relatives in Strome this week.

Sunny Brae school opened on Monday, August 27th with Miss Phyllis Thurston in charge.

Miss Mary Kible as operated on for appendicitis in the Hardisty hospital on Tuesday, August 28th.

The next W. A. meeting is to be held at the home of Mrs. Wilbraham on Tuesday, September 4th.

Mr. Clifford Smallwood is receiving treatment from Dr. Greenburg for his knee, injured while playing ball.

Mrs. Carl Larson left Wednesday via Hardisty for North Dakota where she has been called by the critical illness of her sister.

Mrs. Dave Veach and two sons and little daughter arrived on the flyer Sunday to visit at the home of Mr. and Mrs. Wm. Prior.

The Irma Trading Co. are featuring Philco radios in their advertisement this week, also batteries, and harvest supplies of all kinds.

Mr. R. S. Fitzpatrick and sons, William and Edwin, of Holyoke, Alta., are taking part in harvesting and threshing operations in this district.

Saturday, September 8th, will be the big day for all school children providing they can attend the School Fair in Irma.

Miss Lonnelle Coffin left on Thursday evening's bus for Edmonton enroute for Sexsmith to resume teaching in the public school grades 7 and 8.

Mrs. W. F. White of Stettler arrived last Sunday to spend a week with her sister Mrs. Jas. Fenton and family.

Mr. and Mrs. Jas. Wood moved into their new house on Wednesday, August 29, and Mr. and Mrs. Tony Wozny moved into Mrs. McDowell's cottage.

Miss Mary Kibel was operated on for appendicitis in the Hardisty hospital Tuesday morning. We wish her a speedy recovery.

Mr. and Mrs. Gordon Fenton visited Mrs. Fenton's aunt and family, Mr. and Mrs. Thomas Ryan of Viking last Sunday.

Miss Elizabeth Higginson and Miss Norma McConochie formerly of Irma went in training in the Royal Alexandra Hospital in Edmonton last Tuesday.

Mrs. O'Connor who formerly lived south of Irma but who is now a resident of Wyoming, U. S. A., has been visiting for awhile with Mr. and Mrs. F. W. Watkinson.

Mrs. Almina Hill returned to Irma on Monday last with her son-in-law and daughter, Mr. and Mrs. P. J. Hardy with whom she has been visiting in Edmonton.

E. E. Maxwell, formerly of Youngstown, now representing Canadian Life Insurance Co. with headquarters at Edmonton, called at the Coffin farm Thursday evening.

The regular meeting of Irma Women's Institute will be held at the home of Mrs. A. A. Fischer on Thursday, September 6th at 2.30 P. M.—Mrs. Ross McFarland, Secretary.

Mr. Ed Huffman went to Edmonton a couple of weeks ago for medical treatment for a growth on his face. Mr. Huffman at present is getting along fine since his slight operation. However he will have to go back again soon for further treatment.

Mr. and Mrs. Guy Reed and daughter of Oklahoma have returned to Irma for a visit with relatives and friends. Mr. Reed is taking the place of his nephew, Buster, in the harvest fields. Buster has been suffering from a severe attack of septic sore throat.

A few threshing outfits got started in the Irma district this week. If the present fine warm weather continues all the grain will soon be ready for threshing. (Since the above was written a rain and drizzle has begun to fall which will hold up harvesting for a couple of days at least.)

Edmonton citizens paid tribute to their soldier dead, Sunday. A service was held at the Cross of Sacrifice in Edmonton cemetery, at which Rev. Dr. Osborne, of First Presbyterian church, preached on the subject—"Peace". Acting Mayor James East and Major J. Acton, of the Salvation Army, assisted at the service. The Edmonton Fusiliers band played musical selections. The occasion marked the annual Memorial Day exercises.

STRAYED—From Sec. 18-44-8-4, 1 red and white Shorthorn cow, about 15 years old, branded on left rib Z and reversed K with bar above. Finder please notify Sam Szoke, Irma, Alta., and receive reward. 28p
